

California Native American Tribes

Research Project

INSTRUCTIONS: You and your small group will create a slide show presentation of your tribe using Google Slides.

- You can **research** your tribe by:
 - Reading the Native American tribe **books or informational handouts** that Ms. Dekker has in her classroom
 - Using the **CA Studies Weekly** newspapers (weeks 6, 7, 8, 9)
 - Checking out **books** in the library (Coolidge or local library)
 - Going to the **websites links** from fourdir.com at the end of this document, p. 5. *(FYI: Some of the links from this website are more useful than others.)* Use www.websters.com to find the meaning of more difficult words.
 - Watch CA Native American tribe **videos** and **CA Fact Cards** link at <http://www.diveintolearning.com/social-studies.html>
 - Watch CA Native American tribe **videos** at your Discovery Education account, <https://app.discoveryeducation.com/public:session/login>
- **GOOGLE SLIDE PRESENTATION:**
 - Have one person in the group create start the file, then “share” it with “editing” rights to the other members of your group.
 - You must have a slide for each of the following sections.
 - Slides #2 - 7 must include pictures and brief summaries (2-6 sentences) **in your own words** (do not cut and paste sentences from the internet).

AESTHETIC – some things to keep in mind for your slide presentation:

1. All sections must have a subheading, where the font is larger than the rest of the text on the slide
2. Text must be easy to read (no fancy, cursive font).
3. Use of color, background images, etc., need to engage the viewer and make the pictures and words easy to read and see. Make sure you are not making the colors, fonts, design too “busy.”
4. **DO NOT** write in complete sentences, since this will be a guide for your oral presentation. Use bulleted lists. Ms. Dekker will model/explain how to do this.
5. Each section must have some sort of graphic, image/picture or imbedded/linked video to enhance the information about your tribe. You may embed (or link) a video in your board.
